The result of Tripura Joint Entrance Examination may be published in the last week of May, 2024. However, some changes may take place due to unavoidable circumstances. The Board shall publish Merit list on the basis of the merit. This list includes the candidates who will appear in the examination qualifying the criteria fixed by the Board on consideration of all the aspects. **Result will be published through Board's website.** The Board does not keep any provision for post publication review at any stage and so will not entertain any such application in this regard.

The Merit list will be prepared on the basis of marks obtained by the candidate in the subjects, Physics & Chemistry (P&C), Biology (B) and Mathematics (M) as per his/ her option. For example, for a candidate, who opted for PCM group, Physics & Chemistry, and Mathematics will be considered; while for PCB group, Physics & Chemistry, and Biology will be judged.

## The Breaking Method for Determining Merit Position

In case of tie following successive steps will be adopted as per norms:

	PCM GROUP	PCB GROUP
<b>Step - 1</b>	<b>P+C+M</b>	<b>P+C+B</b>
If tie occurs, then		
<b>Step - 2</b>	<b>Higher Score in P+M</b>	<b>Higher Score in C+B</b>
If further tie occurs, then		
<b>Step - 3</b>	<b>Higher Score in M</b>	<b>Higher Score in B</b>
If further tie occurs, then finally,		
<b>Step - 4</b>	<b>DOB</b>	<b>DOB</b>
Here, <b>DOB</b> means the Date of Birth of a candidate. Senior will be given the preference in merit position as per norms.		

## Percentile Calculation

Percentile Score is the score based on the relative performance of candidates who have appeared for the examination. To calculate a percentile score, the marks secured are converted into a scale ranging from 100 to 0 (Percentile score). **Percentile score** is not the same as the percentage of **marks** obtained in the examination. In this method of **scoring** the HIGHEST

**RAW SCORE** (irrespective of the raw **scores**) will be the 100 **Percentile** indicating that 100% of candidates have **scores** equal to or lesser than the highest scorer/ topper for that examination.

**The percentile calculation of the candidates may be done by the following way:**

$$\text{Percentile score} = \frac{\text{Number of candidates who scored less than or equal to that candidate}}{\text{Total number of candidate}} \times 100$$

Suppose there are 5 candidates A, B, C, D, E have their scores are as follows

A-83, B-92, C-59, D-76 and E-42

**Now, we want to calculate the percentile score of D (say).**

Percentile score of D = (Number of candidates who scored less than or equal to the score of D / Total number of candidate) x 100

**Now only two candidates (C & E) scored less than D and D himself**

**Therefore, Percentile score of D = (3/5) x 100 = 60%**

Similarly Percentile score of C = (2/5) x 100 = 40%

And Percentile score of E = (1/5) x 100 = 20%

And Percentile score of B = (5/5) x 100 = 100%

The above calculation is carried out based on the formula taken from the NTA website (Page 44 and 45).
